Quick Overview

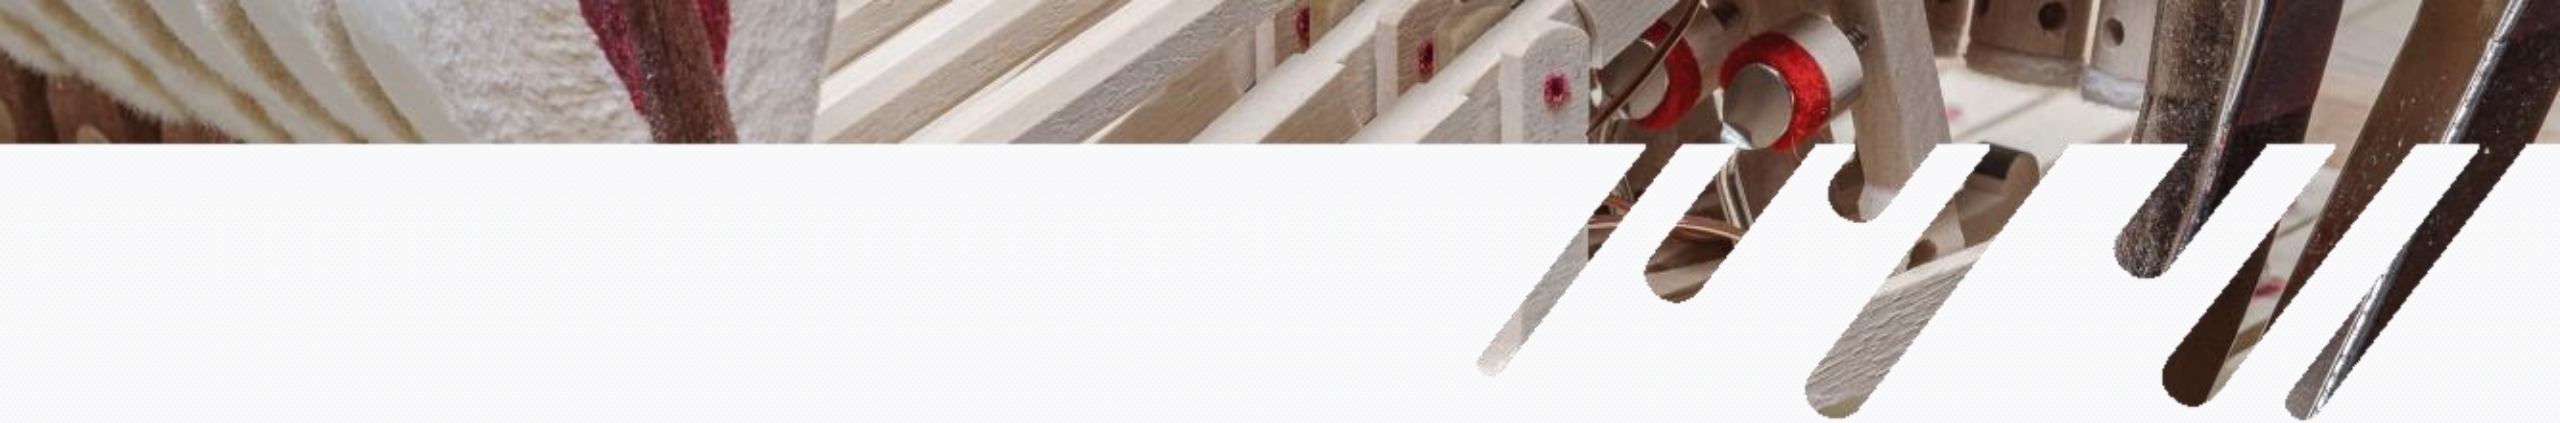

Renner hammer head 2025

1. Renner latest developments
2. Advantages of the new hammer heads

RENNER

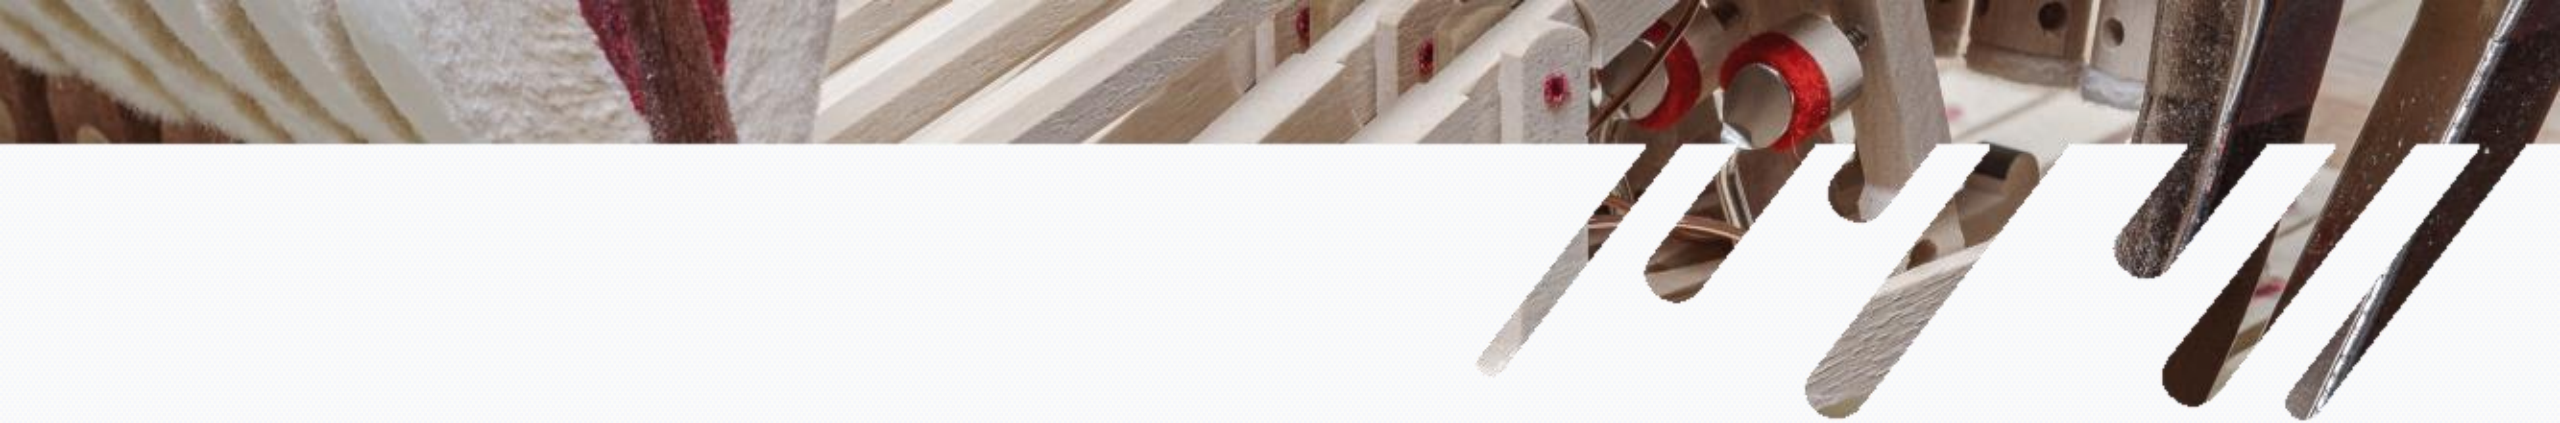

Quick Overview

RENNER®

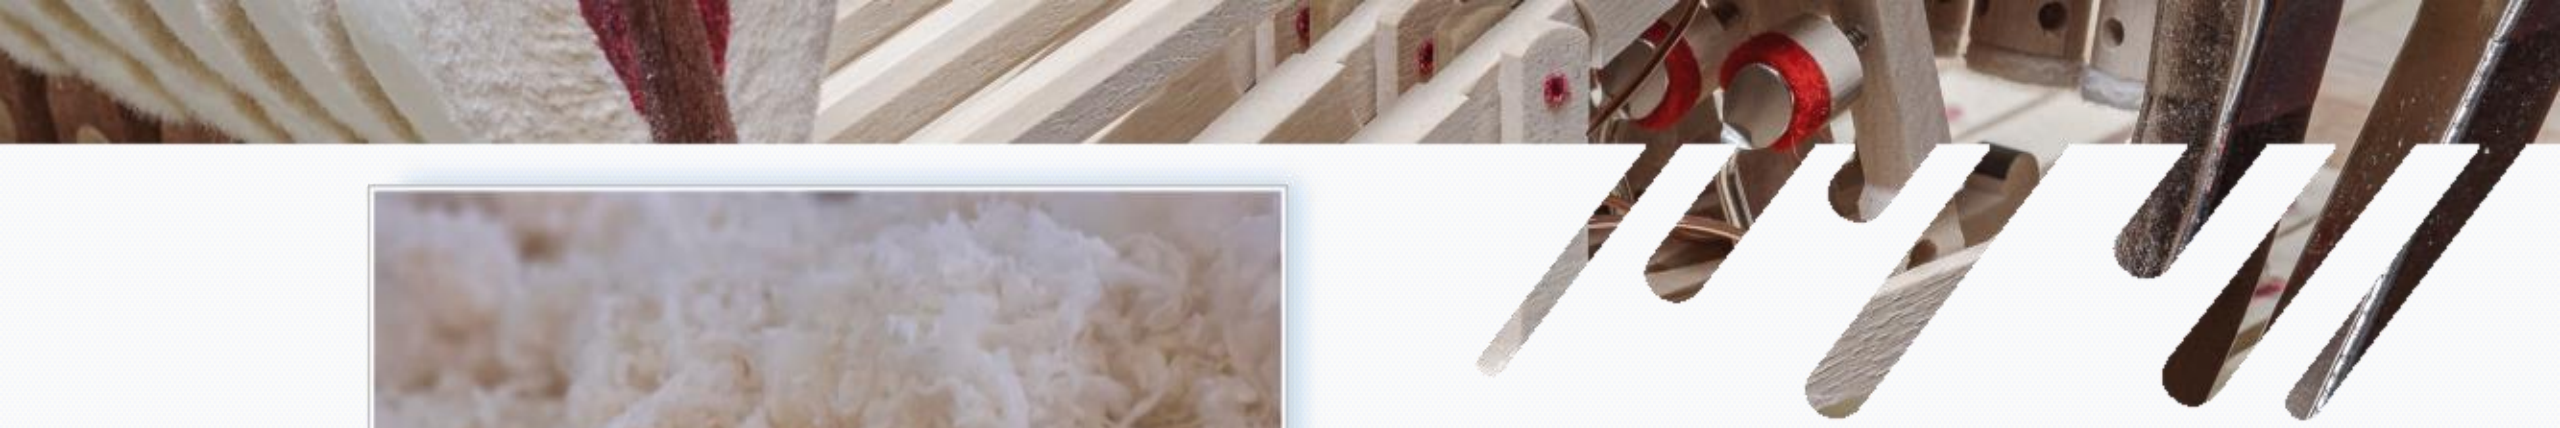

Felt processing at FFW

RENNER®

Felt processing at FFW

We source our top felt exclusively from the Wurzener felt factory, a renowned company known for its high-quality products. Only the finest felt quality is used for us, which has been particularly gently carbonized.

RENNER

Felt processing at FFW

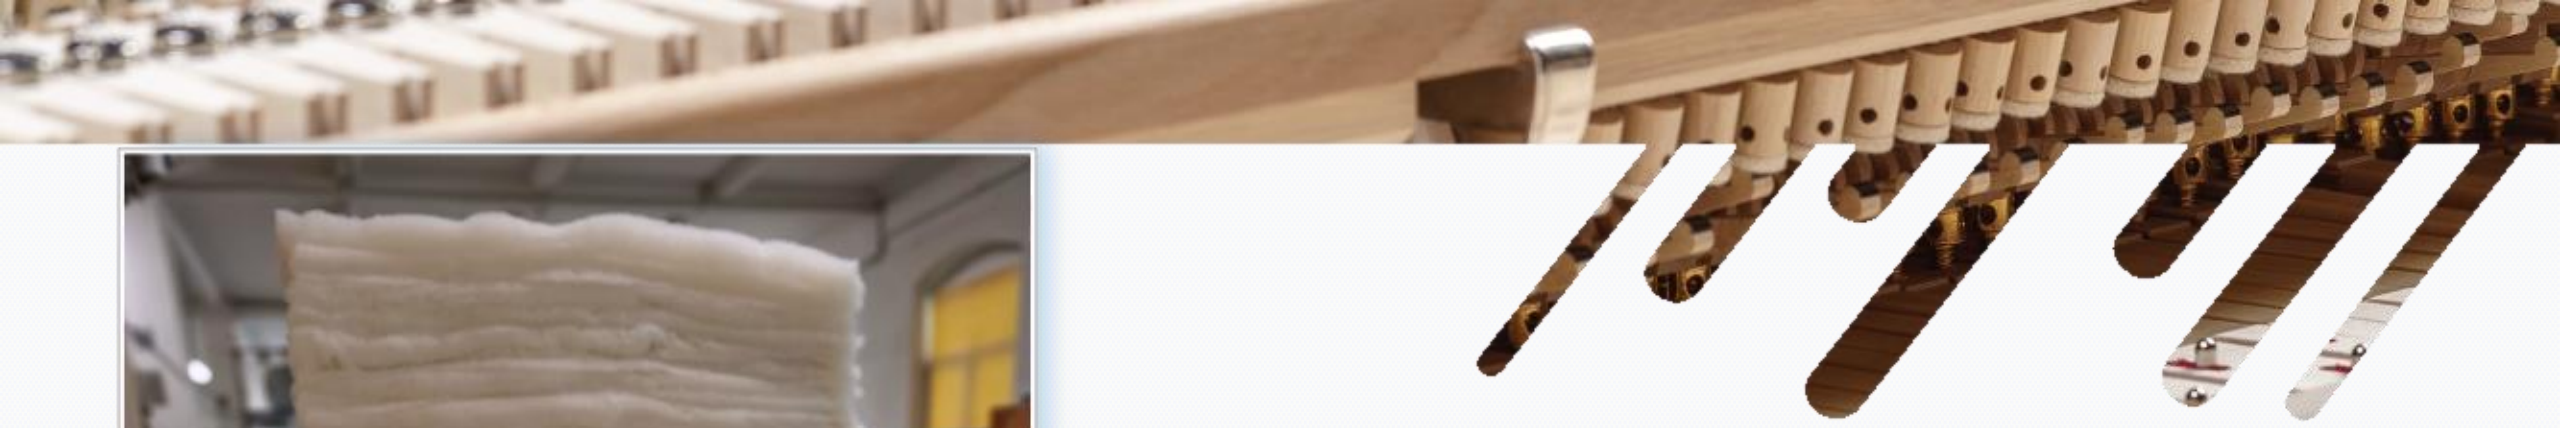

The wool is initially prepared as a fleece with a clearly defined direction of the fibers, and then milled and compressed.

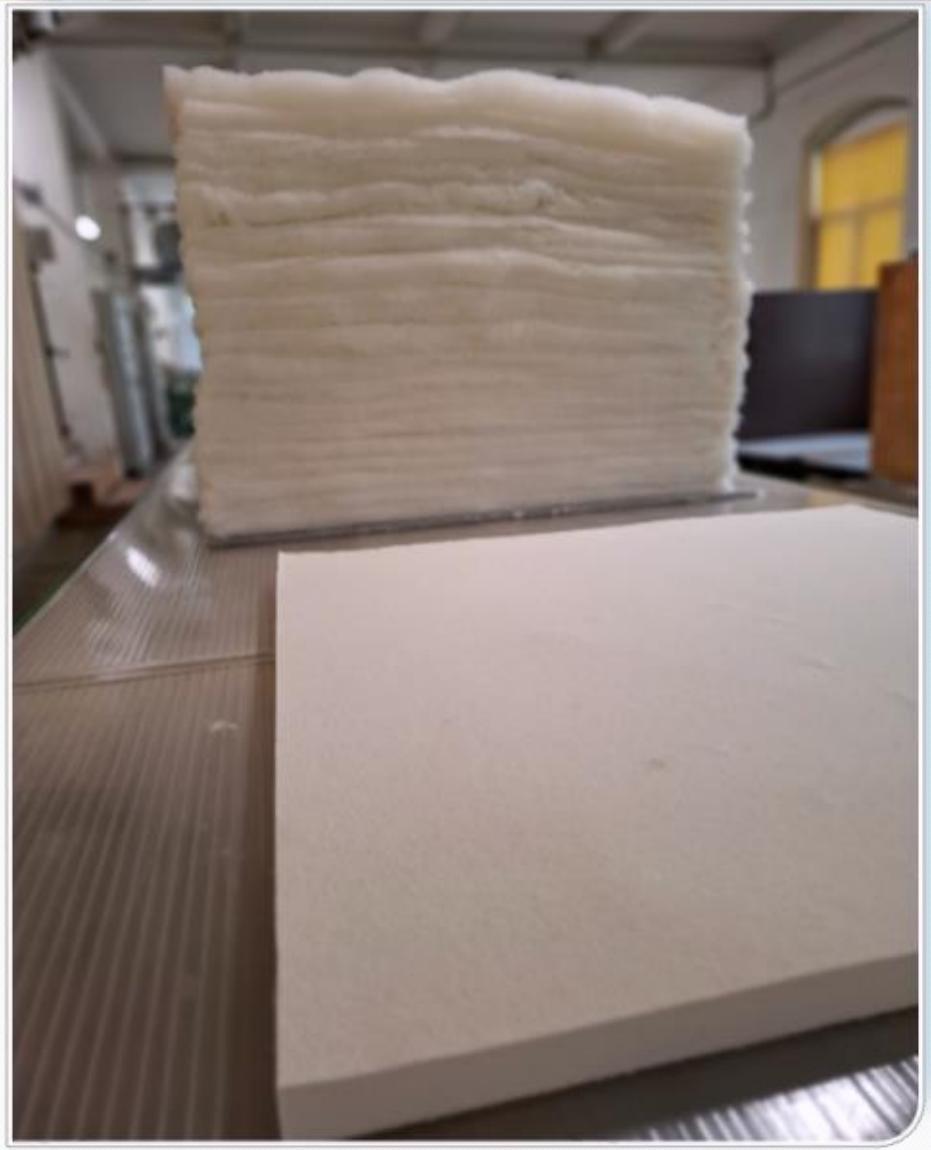

RENNER

Felt processing at FFW

Our extensive selection of premium felt panels enables us to accommodate customer requests with agility. The panels vary in density, felt blend, and dimensions, offering versatile options to suit diverse requirements.
